Hazardous Weather

Hazardous Weather

Elevated fire weather conditions will be found across much of the Panhandles on Tuesday. A cold front will enter the Panhandles from the northwest turning the gusty southwest winds to the northwest.

A Dense Fog Advisory is in effect for all of deep South Texas through 10 am except for the coastal sections of Cameron, Willacy and Kenedy counties. Visibilities will be reduced to a quarter of a mile or less in areas of dense fog.

Hazardous Weather

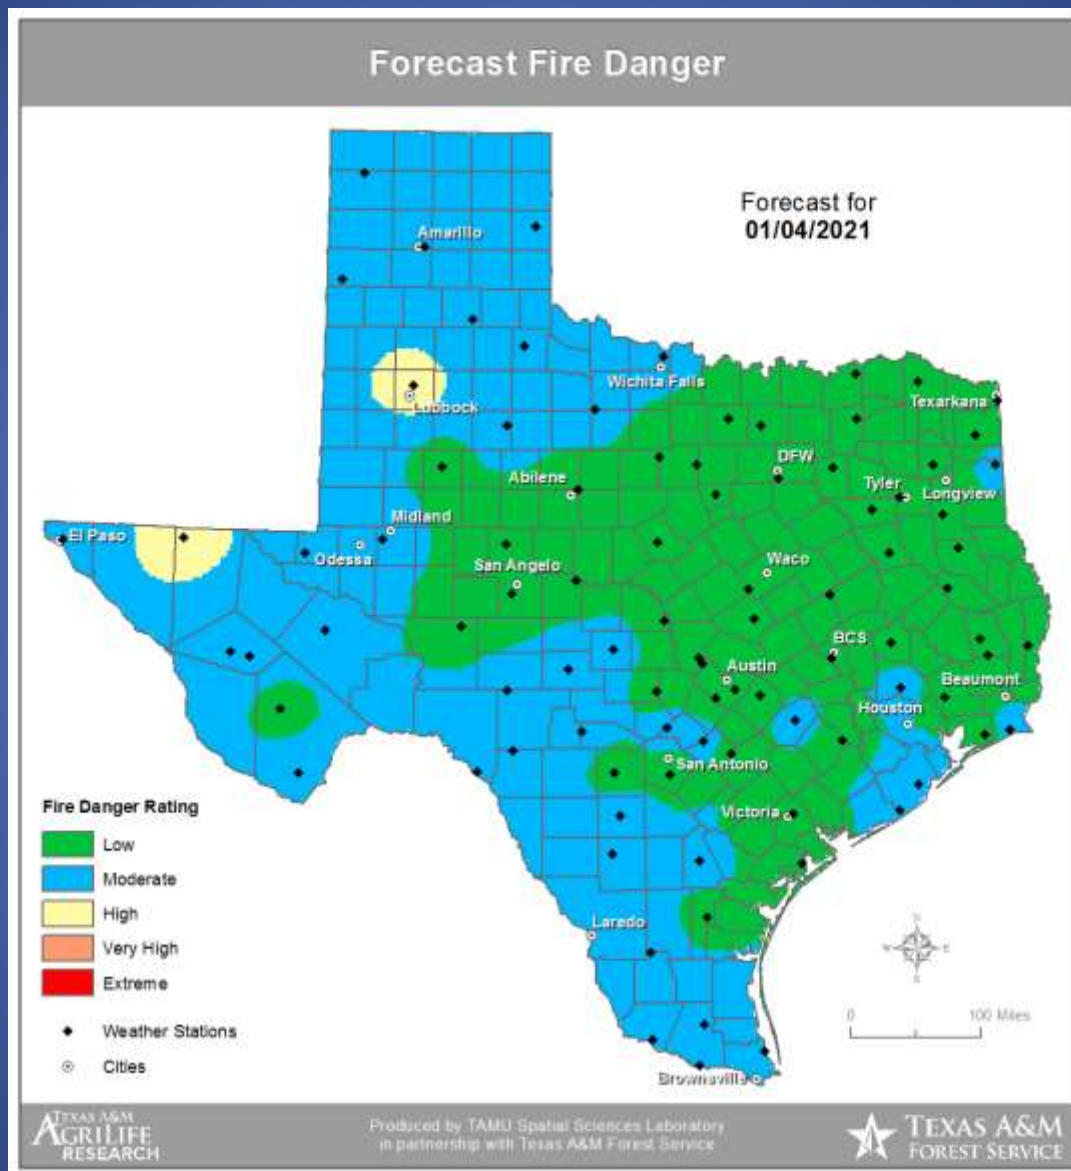

Another cold night is expected across the Borderland, but thankfully, it won't be quite as cold as it has been the last few nights. Still expect all locations to drop below freezing, so be sure to protect your pipes, pets, and plants. Some high clouds will be passing through overnight, and winds will gradually become northwest to northerly.
